

Billings Clinic Laboratory

Billings Clinic Laboratory is a CAP accredited laboratory that performs high complexity laboratory testing in an integrated health system consisting of a 272 bed hospital and numerous clinics. Billings Clinic Laboratory is a regional reference laboratory serving Montana and Wyoming and is affiliated with Mayo Medical Laboratories. The laboratory provides testing in chemistry, hematology, blood bank, immunology, microbiology, urinalysis, and anatomical pathology.

Billings Clinic Laboratory includes five board-certified pathologists, with expertise in cytopathology, dermatopathology, hematopathology and gastroenteropathology.

Laboratory services include daily courier systems from the Montana Public Laboratory and a privately contracted delivery service
